

COVID-19 AG SUPPORT

Partnering to provide *free* education to prevent the spread of COVID-19

SUPPORT NOW AVAILABLE

In response to the COVID-19 pandemic, CVCH would like to partner with your organization by offering a medical and educational event for your employees, free of charge. The virus can spread rapidly in a warehouse or orchard setting, and we believe education is the key to limiting the spread. Along with education, we are offering an open forum with a health care professional for employees to ask questions. Our data shows us that CVCH is the preferred medical clinic accessed by 70-80% of your employees. We believe the fact that many of your employees already come to CVCH will make them more receptive to the message we have to share.

Partnership Includes

- Reinforcement of your internal education
- Access to a bilingual medical provider for staff Q&A
- Access to an infection control professional
- Zero cost to your organization
- Mass testing, when test kits are available

Education is our first goal in visiting your organization. We would educate employees using information from the CDC and Health District, and provide a Q&A session for your employees to ask questions to a bilingual CVCH staff member. We have additional resources available, including infection control consultation and mass COVID-19 testing, if needed. Our hope is to get ahead of this with education so mass testing is not necessary. However, we're available to discuss the feasibility of mass testing within your organization should that be something you wish to consider.

Columbia Valley Community Health (CVCH) is a Federally Qualified Health Center that offers medical, dental, behavioral health services to all residents of Chelan and Douglas counties, and surrounding areas, regardless of ability to pay. We care for over 35,000 patients per year between our nine locations in Wenatchee, East Wenatchee and Chelan.

“Our top priority is the health and wellness of our community members. We are also highly invested in the health of our community businesses, so we are partnering with businesses in the community to help ensure their workforce stays healthy.”

-David Olson, CEO for CVCH
